

Bushfire Risk Assessments NSW

Building on Bushfire Prone Land?

EnviroAg specialises in providing professional and technical assistance to property owners, developers, architects, and planners with acceptable solutions that will satisfy performance criteria required for:

- Single build new homes;
- Residential and rural subdivisions;
- Special fire protection purpose developments; and
- Infill developments and other development types.

Minimise Your Risk

Our team of environmental scientists and ecologists can assist with:

- Identifying relevant legislative requirements for your proposed development;
- Conducting a detailed bushfire assessment on-site;
- Determining the construction standards in accordance with AS 3959-2009 and PBP 2006; and
- Preparing a detailed report that demonstrates compliance with requirements in your DA submission.

Contact **EnviroAg** today to discuss how we can assist you.
